TRUESPEND - Quick Start

Budget Command Center - 60-second setup, then you're budgeting

1. OPEN THE APP (no install, no account)

Double-click TrueSpend-Dashboard.html - it opens in any browser.
Works on iPhone, Android, tablet, Mac & Windows. No internet needed.
Tip: keep the file somewhere safe (Documents folder, iCloud, Drive).

2. MAKE IT FEEL LIKE AN APP (optional, 20 seconds)

iPhone: Share button > Add to Home Screen. Opens full-screen.
Android: browser menu > Add to Home screen / Install.
Computer: bookmark it, or drag the file to your bookmarks bar.

3. RUN THE 60-SECOND SETUP WIZARD

Step 1: your name + currency ($, euro, pound, yen, rupee, kr...).
Step 2: pay frequency, next payday, paycheck + checking balance.
Step 3: pick one of 6 themes. Done - your safe-to-spend appears.
A demo budget is preloaded so you can explore first. Start fresh anytime: Settings > Start fresh.

Your data never leaves your device. No accounts. No uploads. Ever.

DAILY USE + FAQ

Three habits. Two minutes a day. Total control.

YOUR 2-MINUTE DAILY HABIT

Morning: glance at Today - safe-to-spend + bills due soon.
Buying: Log it in 2 taps (Spend > Quick add). Takes 5 seconds.
Tempted? Open What-If, drag the slider, get a Go / Tight / Skip.
Weekly: mark bills paid, nudge goals forward. That's everything.

POWER FEATURES YOU'LL LOVE

45-day forecast: see your low point before it happens.
Debt simulator: snowball vs avalanche, extra-payment slider.
Privacy blur + Simple mode: glance-proof in public.
Backup: Settings > Backup downloads your data (JSON).
Restore it on any device. Export transactions to CSV anytime.

FAQ

Is my money info safe? Yes - it's stored only in your browser.
New phone? Backup on the old one, open the file, Restore.
Something looks off? Settings > Reload demo to compare, or
message me on Etsy - I answer fast and fix things free.

You bought it once. It's yours forever. Happy budgeting!
