Thank you!

Thank you so much for your order — I hope you love your new art!

Here is how to get the best result:

1. Pick the folder that matches your frame size (see the size guide).
2. Print at 100% scale on matte or fine-art paper, 180 gsm or heavier.
3. Every file is already 300 DPI — just hit print.
4. For large sizes, a local print shop or online lab gives the best result.

If anything is not perfect, message me on Etsy and I will make it right.
